Testimonial for Gary Taylor from Wootton Taylor

I have been in business for a few years, and every so often I have a good idea about growing my business.

These usually sound great in my head.

Some of them might even progress as far as the back of apocryphal fag packet.

However, a little while ago I had another brilliant idea, but this time there was one small difference.

I took my fledgling idea to Gary Taylor from Wootton Taylor. We had a chat, which led to a discussion, which in turn led to fully fledged business plan ready to take flight.

If you want to turn your business idea from "Wouldn't it be great if...." to "WOW that's really possible", then my advice would be

DON'T WAIT OR TARRY. PICK UP THE PHONE AND CALL GARY.
